

KYOTO COLLECTION

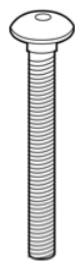

ASSEMBLY INSTRUCTIONS

**THESE ASSEMBLY
INSTRUCTIONS APPLY TO
THE FOLLOWING MODELS:**

- Kyoto Bed, Kyoto Bed with Headboard
- Kumo Bed, Kumo Bed with Headboard
- Kobe Bed, Kobe Bed with Headboard

FITTINGS FOR THE KYOTO COLLECTION

(only additional tool required is a Philips head screwdriver):

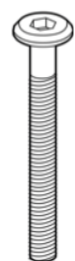

3 X
DOME
HEAD
BOLT*

1 X
ALLEN KEY

1 X
SPANNER

6 X
FLAT HEAD
BOLT

3 X
NUTS*

4 X
WASHERS

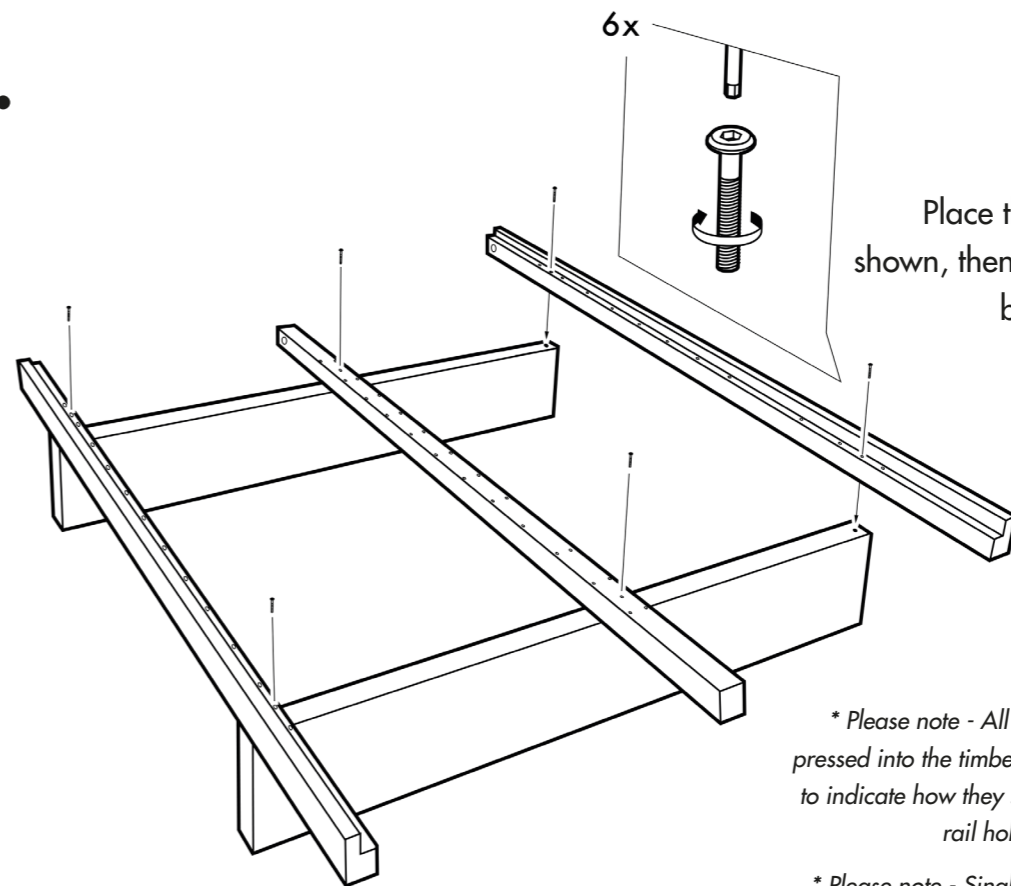

3 X
HALF
MOON
WASHER*

4 X
SCREWS

* 2 IF SINGLE BED

1.

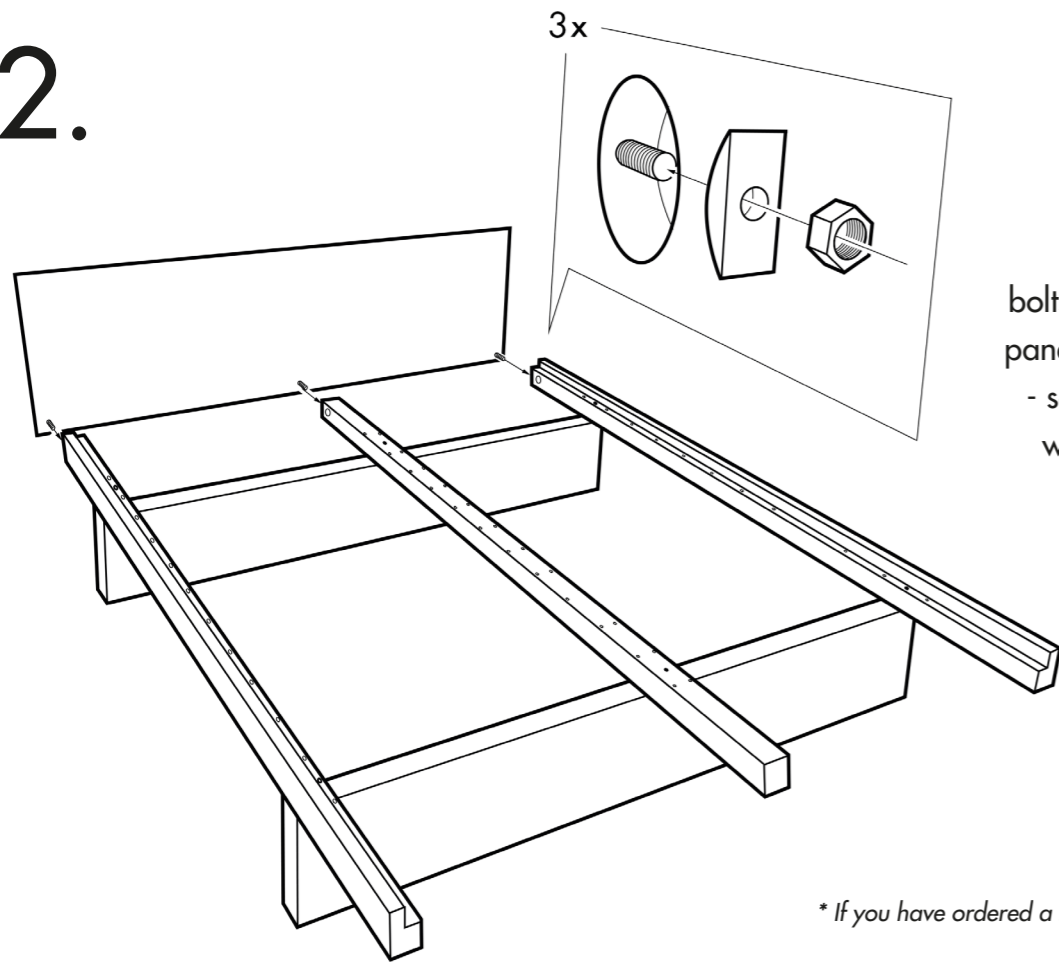

Place the rails on the legs as shown, then screw in the flat head bolts with the allen key.

* Please note - All timber sections have numbers pressed into the timber where they are tied together to indicate how they should be positioned (e.g side rail hole1 connects to leg rail hole1).

* Please note - Single bed bases will not include a centre rail

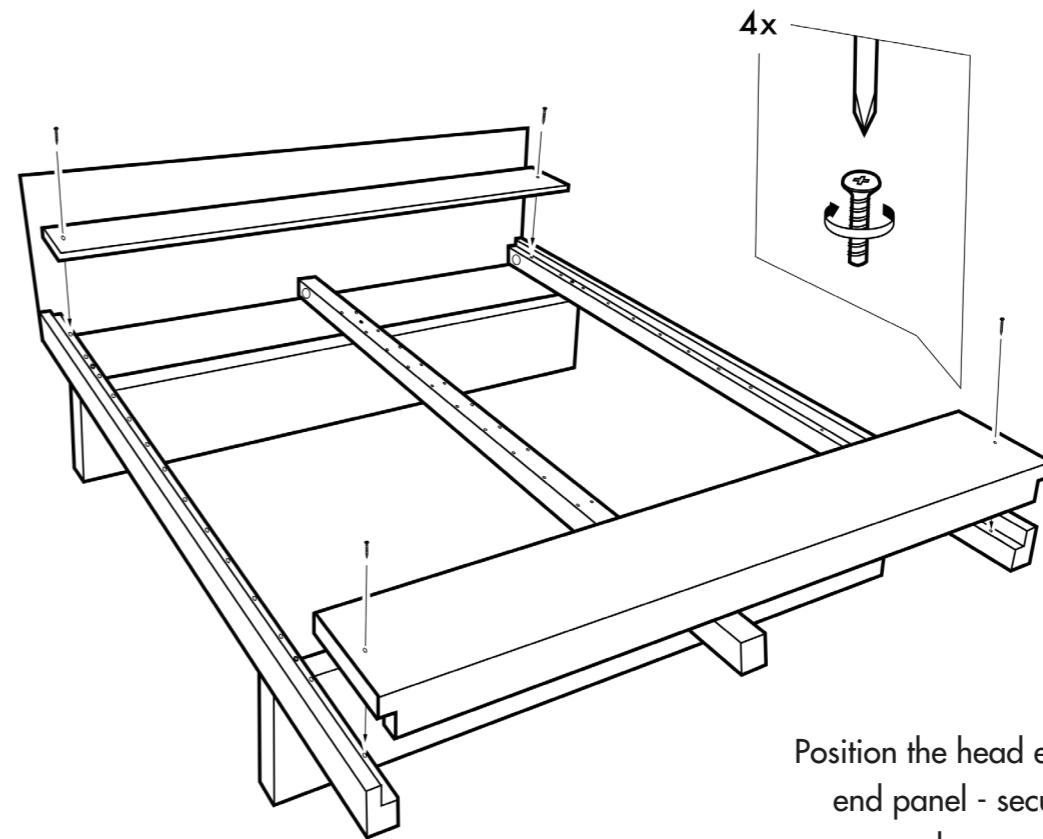

2.

Using the dome headed bolts connect the headboard panel to the side/centre rails - secure with the half moon washers and nuts. Tighten with the spanner.

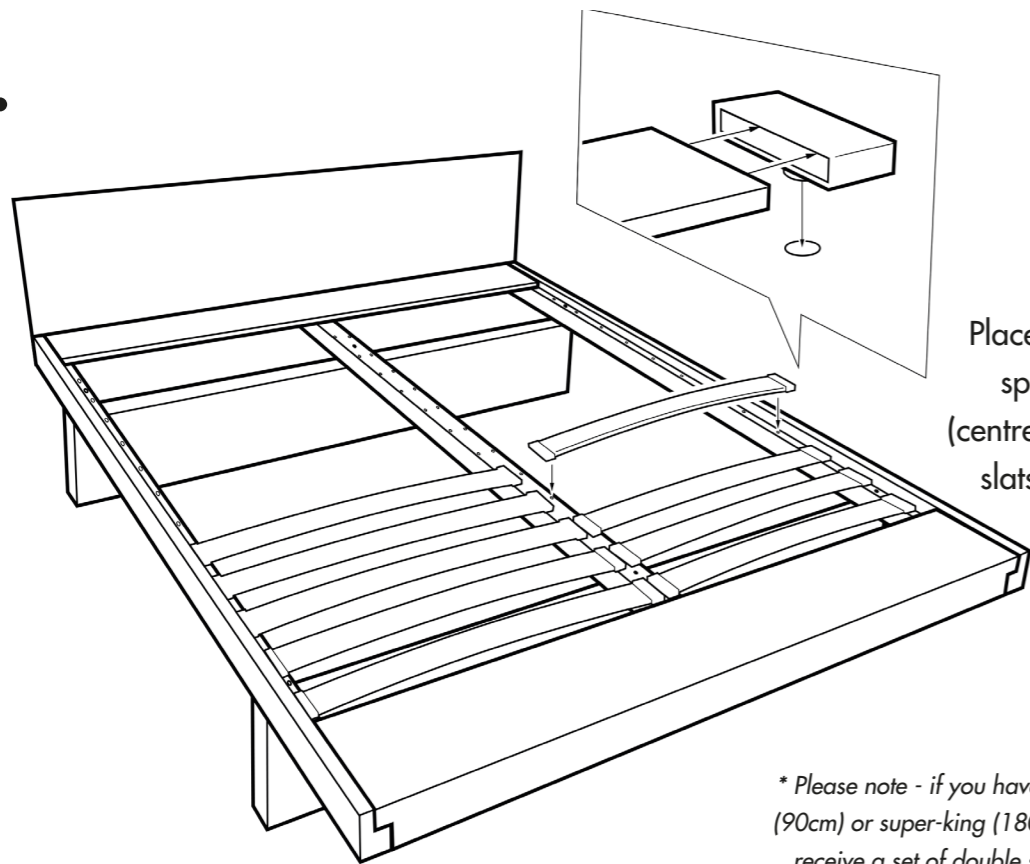

** If you have ordered a bed without a headboard please ignore this step.*

3.

Position the head end panel and foot end panel - secure using the small washers and screws provided.

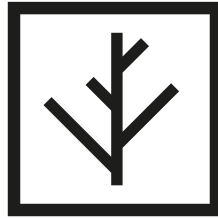

4.

Place the end caps on the sprung slats and attach (centre of the gently curved slats should be upwards)

** Please note - if you have ordered a standard single (90cm) or super-king (180cm) bed base you will also receive a set of double slats with sliders. These slats are for holes 4-9 from the head of the bed base.*

THANK YOU FOR BUYING A BED FROM
